Assessing Tradeoffs for Human Wellbeing and the Environment of Smallholder Cash Crop Production

Socio–Economic Challenges

- Health
- Climate Change
- Species Richness
- Soil Quality
- Economic Development
- Gender Roles
- Energy
- Species Density

Ecological Challenges

Tal Lee Anderman - Sustainable Development, Columbia University
Mentors: Professor Ruth DeFries, Dr. Roseline Remans, Advisor: Professor Stephanie Pfirman

Data for this research was gathered through an internship with Millennium Promise and the Millennium Villages Project
